

Euro-Biolmaging

Support of translational imaging research by pan European research infrastructures

Programme

Date: Sunday, 4 March 2012, 16:00 – 17:30
Venue: ECR 2012, Room Z

The session aims to present the progress of Euro-Biolmaging, the ESFRI pan European research infrastructure for imaging technologies in biological and biomedical sciences. Synergies of Euro-Biolmaging with other ESFRI research infrastructures coming from the life science field and their potential impact on translational research in imaging will be presented.

European radiologists and residents are most welcome to attend the session!

Moderator: S. Schönberg, Vienna/Mannheim

- 16:00 – 16:20 Euro-Biolmaging--Strategy for access to innovative imaging research in Europe**
S. Schönberg, Euro-Biolmaging, Vienna/Mannheim
- 16:20 – 16:40 Infrafrontier- Providing large-scale infrastructure for animal models**
M. Raess, Infrafrontier, Munich, DE
- 16:40 – 17:00 ECRIN-- Clinical studies involving imaging for outcome-oriented research**
J. Demotes, ECRIN, Paris, FR
- 17:00 Discussion**

The audience is most welcome to attend a small Reception of EIBIR for personal discussions (Sunday, 04.03., 17:30, Room Z).
