Network Membership service packages

EIBIR has established itself as a network with a constantly growing number of research institutions. In order to secure the viability of the organisation as well as maintenance and, consequently, improvement of the services, a sound financial basis will be essential. Therefore, starting in 2010, three different categories of EIBIR service packages were introduced for Network Members.

We very much hope that the EIBIR Network Members will support this strategy and look forward to a fruitful cooperation.

Details at: www.eibir.org

Active Service Package € 1,000 per year

This package is intended for all research institutions taking part or intending to take part in one or more research projects coordinated by EIBIR.

For Network Members subscribing to the Active Service Package, EIBIR support in grant applications is without additional cost, including professional support in proposal writing, organisation and management of the funding application phase, incl. planning meetings, etc.

After the end of the project or in case of unsuccessful application, it is possible to downgrade to the Regular Service Package. Network Members who subscribe to the Active Service Package on a permanent basis enjoy continuous eligibility for support in proposal writing and project management.

Services include

- Entitlement to participate in research projects
- Eligibility to become a member of the EIBIR Scientific Advisory Board
- EIBIR support in consortium composition, proposal writing and project management of new research projects at no additional cost
- Access to the online directory of the EIBIR Network
- Possibility to post training events and job openings on the EIBIR website
- Regular information and updates on biomedical imaging research activities in Europe, Newsletter, direct communication channels with Europe's leading biomedical imaging researchers
- Possibility to participate in EIBIR's topic-oriented initiatives as well as to propose the launch of new initiatives to the Scientific Director
- Exchange and dissemination of good practice
- Use of EIBIR umbrella and label for the submission of research proposals to funding institutions and option to apply for EIBIR support in project management etc.

Regular Service Package € 200 per year

This package is intended for all research institutions that are interested in an active participation in the EIBIR Network.

Services include

- Eligibility to become a member of the EIBIR Scientific Advisory Board
- Access to the online directory of EIBIR Network
- Possibility to post training events and job openings on the EIBIR website
- Regular information and updates on biomedical imaging research activities in Europe, EIBIR Newsletter, direct communication channels with Europe's leading biomedical imaging researchers
- Possibility to participate in EIBIR's topic-oriented initiatives as well as to propose the launch of new initiatives to the Scientific Director
- Exchange and dissemination of good practice
- Use of EIBIR umbrella and label for the submission of research proposals to funding institutions

Associate Service Package € 100 per year

This package is intended for research institutions that wish to be informed about EIBIR's activities, but for the moment do not intend to play an active role in EIBIR's initiatives and projects. In case of more active involvement, an upgrade to other packages is possible.

Services include

- Access to the online directory of EIBIR Network
- Possibility to post training events and job openings on the EIBIR website
- Regular information and update on biomedical imaging research activities in Europe, EIBIR Newsletter, direct communication channels with Europe's leading biomedical imaging researchers
