

RHYTHM

RADIATION, HEALTH, SAFETY &
QUALITY FOR YOUTH

RHYTHM is a European initiative to make medical imaging safer and more effective for children, adolescents, and young adults.

OUR MISSION

RHYTHM aims to improve the quality, safety, and accessibility of medical imaging for children, adolescents, and young adults, groups particularly sensitive to ionising radiation

OUR OBJECTIVES

- Make sure scans are **truly needed** and done in the **safest way** possible.
- Improve **access to specialised imaging machines** designed for children, adolescents, and young adults.
- Create **clear guidelines and tools** for healthcare professionals to help them decide when and how to scan.
- Provide **education and training** for medical teams.
- Share information with **families and patients** and **raise awareness** about safe and effective imaging.

COORDINATOR

The European Institute for Biomedical Imaging Research (EIBIR), AT

CONSORTIUM

19 partners from 12 countries

RUNTIME

1 October 2025 - 30 September 2029

FUNDING

Total: €3,720,750.70 ; EU Contribution: €2,976,600.48
